MAKE THE FIRST IMPRESSION

“Dream big, it’s the first step to success,
making goals come second.” Invajy

Fascination Of The **Authentic** Beauty

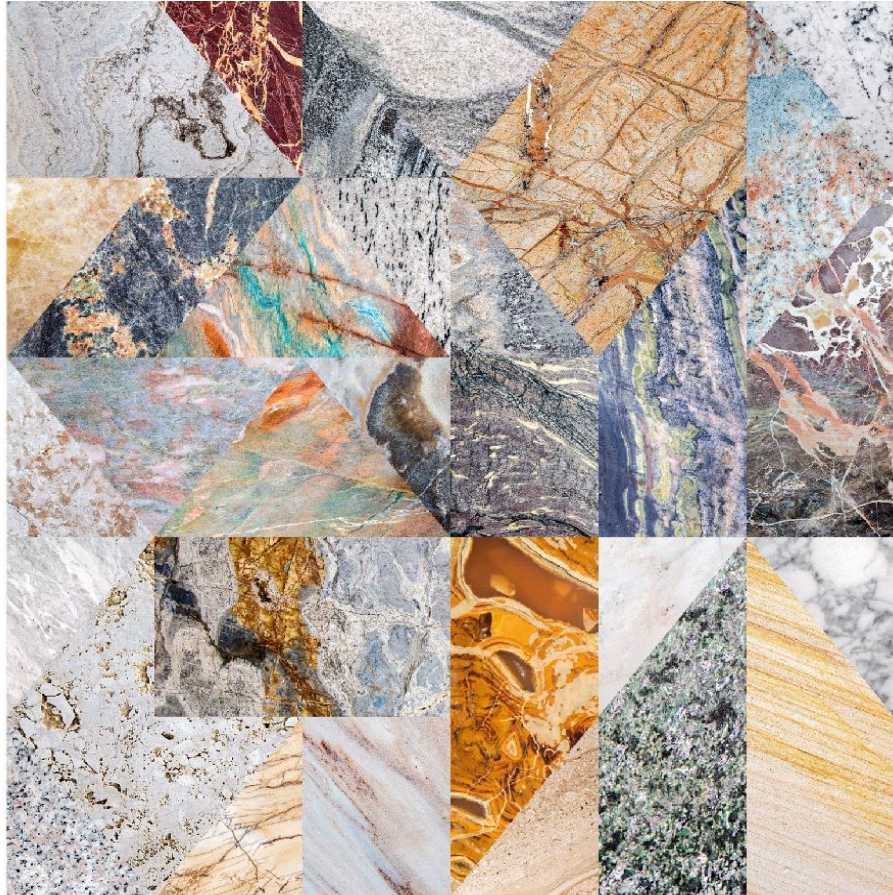

Unimar philosophy, from the beginning, has been unique. From the essence of ideas to the creation and development of the living experience, our priority is to take care of our clients and be authentic and different in everything we do.

Talal Mansour

President & CEO

Unimar Group of Companies

It's Definitely In Our **DNA**

We just love pushing the limits to see what can be done in final design and the outcome - both in terms of aesthetics and functionality. And obviously, without quality to back it up, it would be nothing. So, if you love perfection, at Unimar, you can trust. We live by these principles. Every product is designed with simplicity and checked by hand before it leaves our factories, packed well to reach as it-is and, of course, it must be beautiful. Our Design Studio is a place where our artists make creativity happen. They live and breathe simplicity and its magic. It's in our DNA.

Talal MANSOUR

Sustainability And Respect For Environment

We are big believers of sustainability. In addition to looking at product level, we monitor everyday steps to reduce the impact on the environment - as a business and as individuals.

It's not just something to do once to tick a box and then forget about it - it is a continuous process. We do big things like recycle stone and water. We are working extremely hard on introducing eco-friendly FSC-certified packaging alternatives.

Then there are small things like no plastic bottles and coffee cups in our offices - every little gesture adds up. We're also minimizing our paper use by focusing more on our digital catalogues and reducing the number of papers we print. It was a tough call because, in the design and luxury sector, beautiful printed catalogues are seen as a type of calling card for top brands.

Each paper matters:

*The carbon footprint of one **A4** sheet of office paper ranges from 4.29 to 4.74 g. It translates into 180 million tons of **CO2** for 300 million tons of paper used annually.*

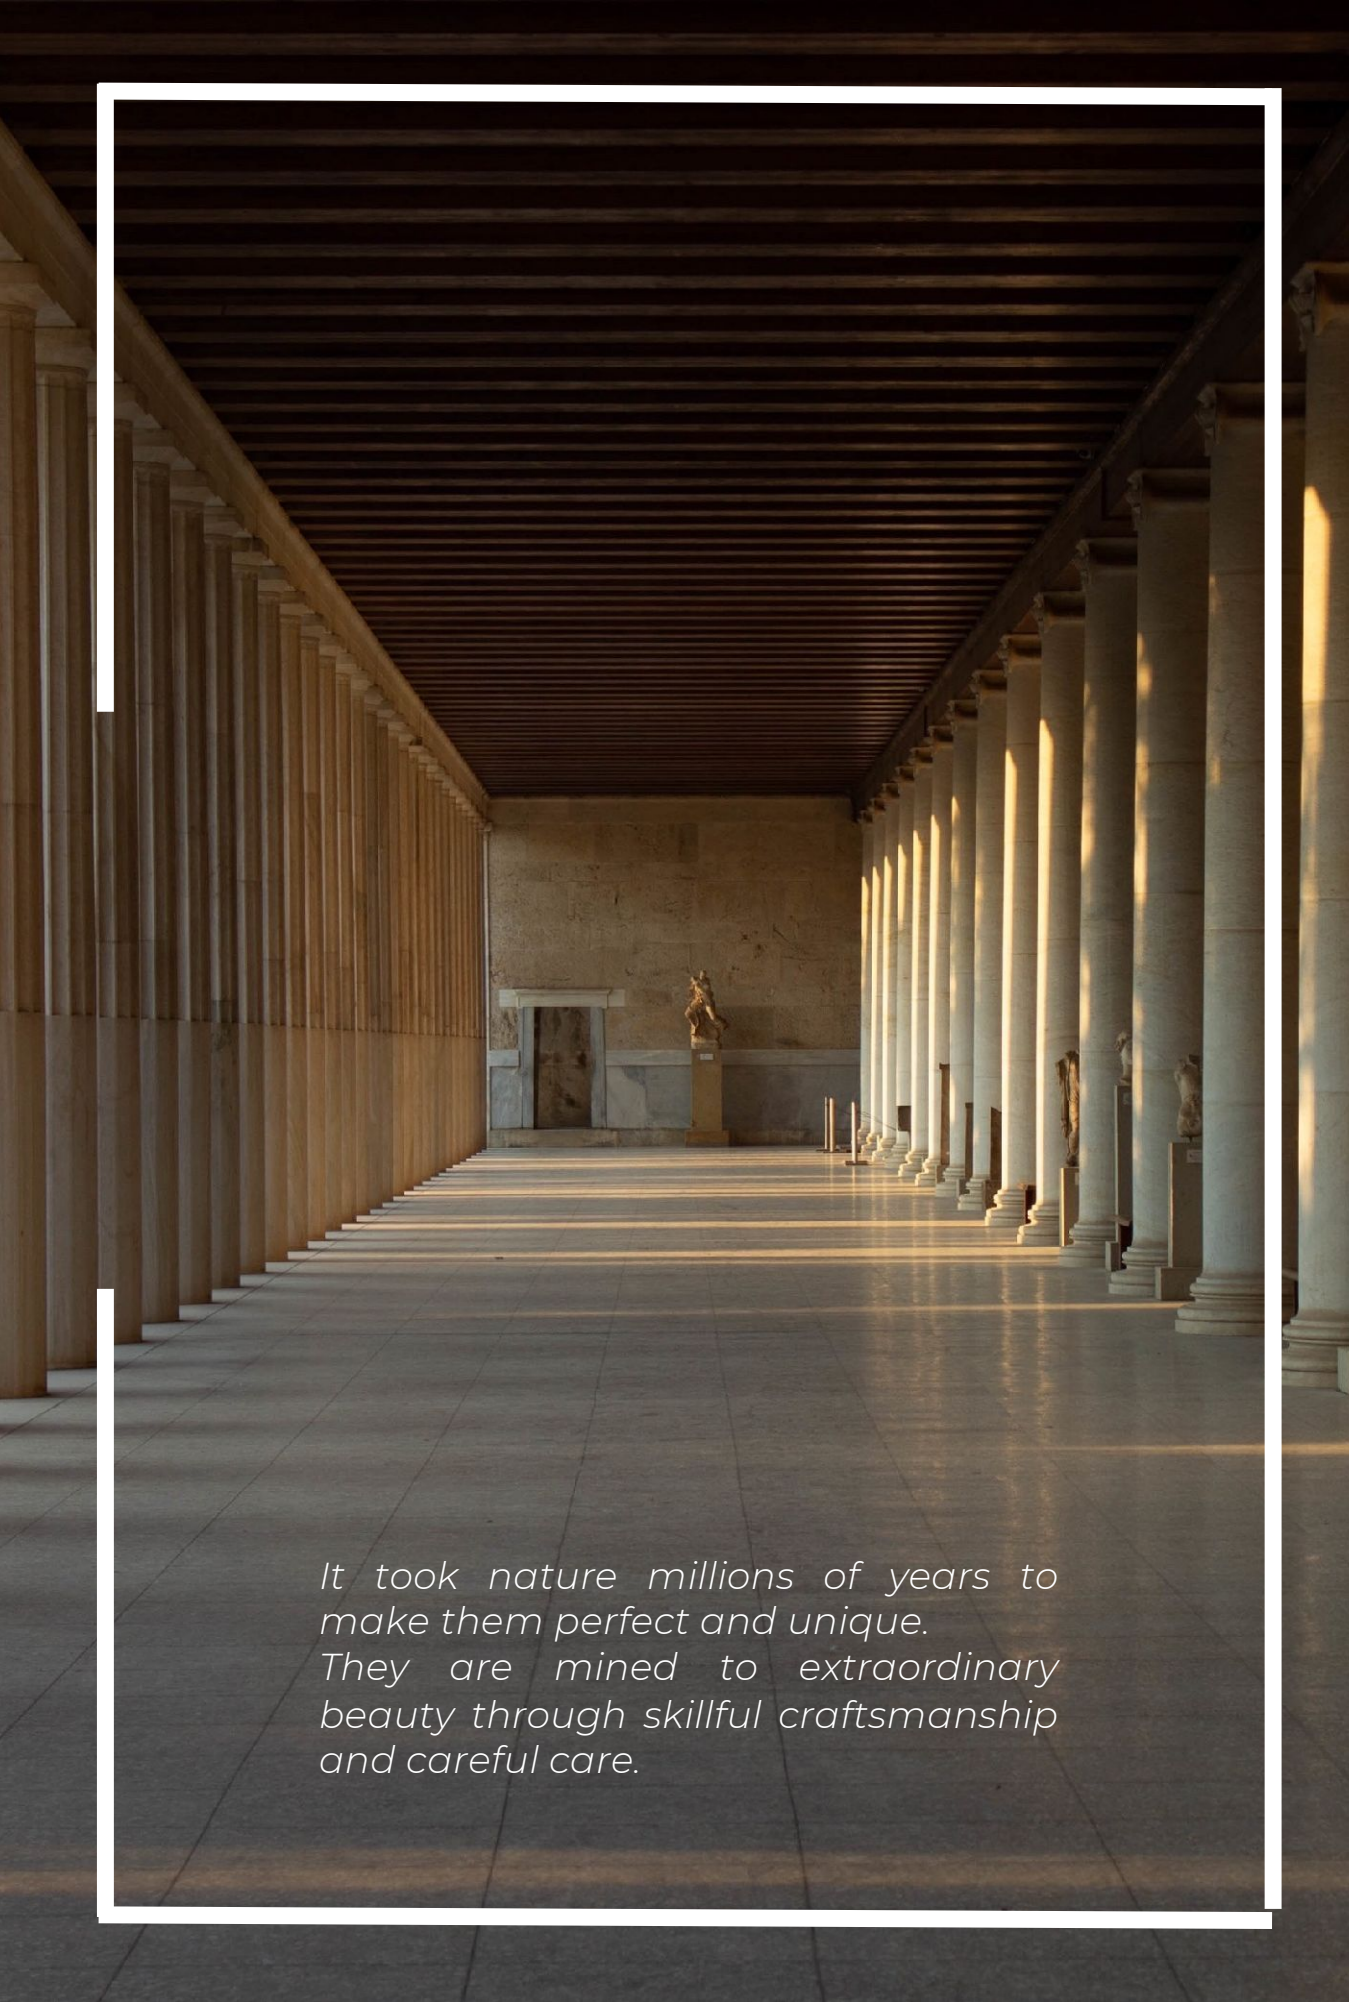

Our green mission is sustainable growth. We have created baselines for construction industry to solidify the environmental advantages of rational raw material choices and initiated industry-wide campaigns to reduce the life-cycle impact of natural products by developing a series of best practices to supports the green movement in quarrying, fabrication and reclamation.

Clean Products Are Green Products

The Natural Stone Council (NSC), in partnership with the University of Tennessee's Center for Clean Products (CCP), has produced a library of information regarding Genuine Stone® and the environment. Their progressive research has substantiated that natural stone possesses many benefits and is a smarter green building material. Unimar is leading the marble and granite industry in Middle East and Africa in this green initiative.

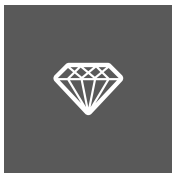

A photograph of a long, empty classical gallery. The space is defined by two long rows of tall, fluted columns that recede into the distance. The ceiling is high and features a series of dark, horizontal wooden beams. Warm, golden light enters from the right, casting long, soft shadows across the polished stone floor and highlighting the textures of the columns and ceiling. At the far end of the gallery, a small, recessed alcove contains a statue on a pedestal. The overall atmosphere is one of grandeur and quiet solitude.

*It took nature millions of years to
make them perfect and unique.
They are mined to extraordinary
beauty through skillful craftsmanship
and careful care.*

Our Core **Values**

Client First

**Transparency
Trust**

Safety

Teamwork

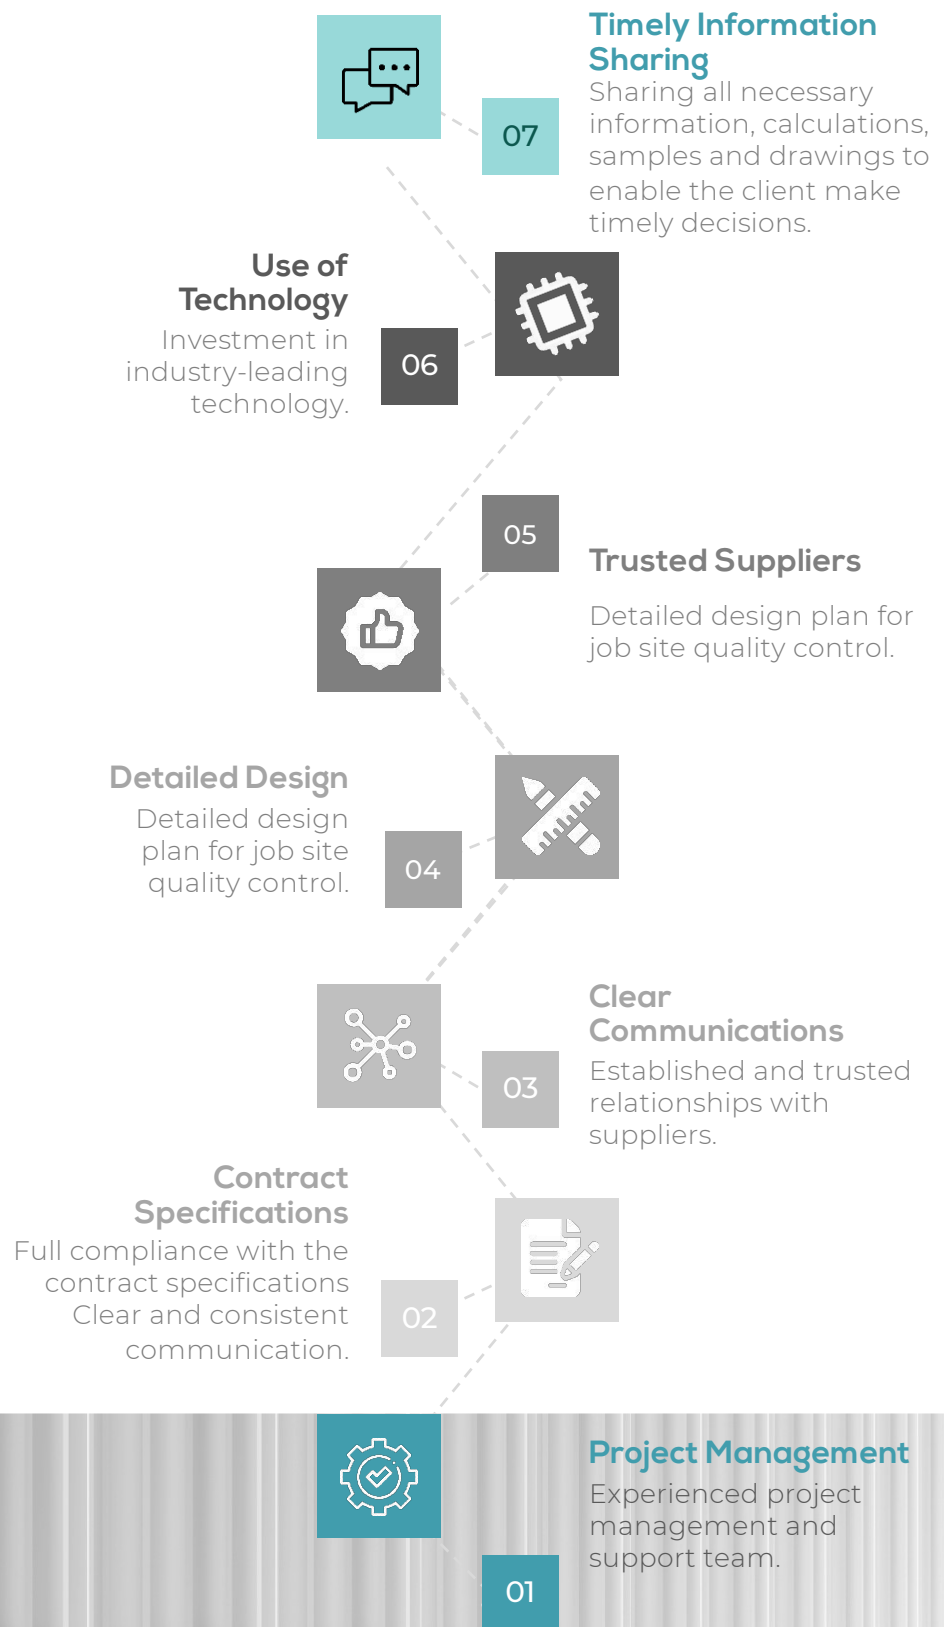

Care of People

Pillar Of UNIMAR Quality Policy

Foundation
of Client
Satisfaction

To establish and set out procedures to be adopted in order to ensure that all work carried out at projects meet our quality standards, here are pillars of Unimar quality policy.

With two factories in Italy and Saudi Arabia and fully operational office in the United Arab Emirates, we have established ourselves

as industry pioneers, delivering high-quality projects that define modern architectural design aspects.

About Us

Unimar vision of the future is greener communities, healthy lives, stronger buildings and appealing interiors.

MANPOWER

172+ Employees
including Designers,
Admin and Workers.

OFFICES

2 offices in G.C.C and
1 Office in Europe.

Unimar is one of the Middle East' largest and most experienced stone manufacturer and suppliers. Its ability to complete the most challenging civil construction, interior and fit-out projects is backed by one modern factory in Italy and one in Saudi Arabia - both equipped with state of the art machinery and latest equipment.

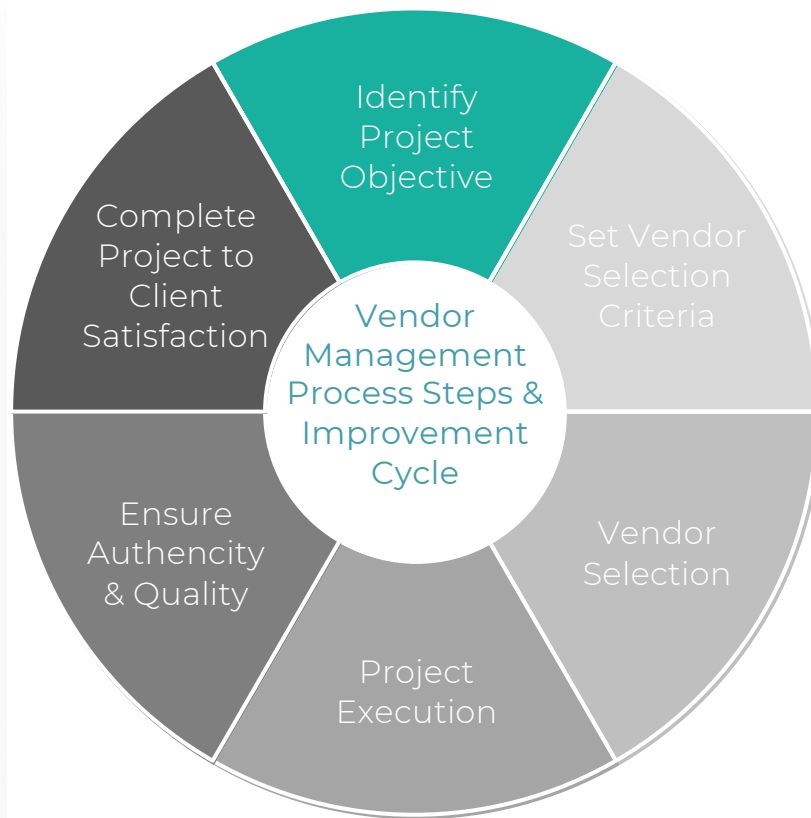

We have one factory in Italy and another one in Saudi Arabia to supply the finest stones but also provide raw materials, construction supplies, fixtures, fittings and furniture from around the world.

Global Reach

Defined by one-of-a-kind creations, attention to detail, love of natural stone, from concept to design, technical drawing, site surveys, material selection, construction, and installation - we handle each phase with care and respect.

Choosing Partners & Suppliers

Over decades, **Unimar** has developed an ecosystem of suppliers, from around the world, who support our business operations. Our goal is to deliver perfect projects within tight timeframes, at a cost that represents the best possible value to our clients. We love working with designers who share the same vision and enjoy a mutual exchange of ideas. The ones who are not interested in brief trends or jumping on the latest fashion and those who love the notion “Why did nobody ever think to do that before?” Once done, it seems so natural, it becomes Unimar style.

Strength of Our Supply Chain

With one factory in **Italy**,
one in **Saudi Arabia**, a
warehouse in **UAE**,
world's best artisans,
latest equipment and
machinery, we offer.

THE MOST INNOVATIVE

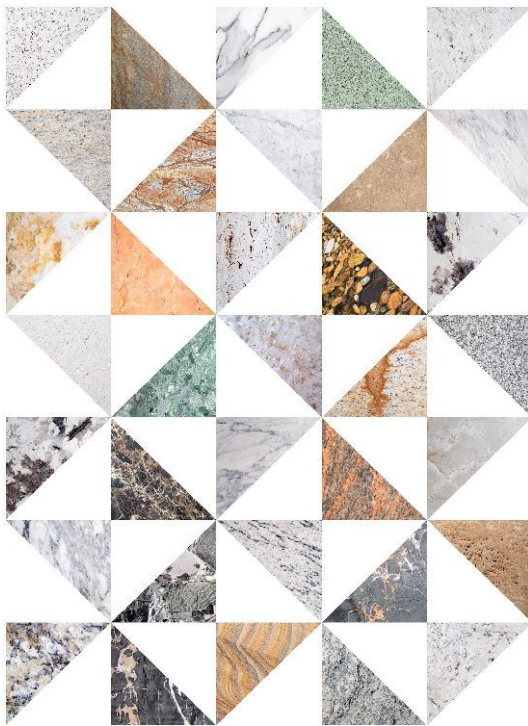

In 2016, **UNIMAR** received an award from the Government as the most innovative company in Saudi Arabia in the natural stone sector. A part of our business is transforming raw stone into unique and exclusive products by combining proprietary technology and techniques with the expertise and human touch of our team of artisans. An indelible bond with the quarries, just a stone's throw away from our headquarters, together with obsessive attention to detail and an innate ability to anticipate and reinterpret design trends are the characteristics which have long distinguished Unimar from others - we set the global benchmark when it comes to innovation in construction, fit out and interiors.

COMPANY TIMELINE

UNIMAR

LINE OF BUSINESS

CONSTRUCTION .
FIT-OUT . INTERIOR

“The alternative to
good design is always
bad design.
There is no such thing
as **no design**.”

- ADAM JUDGE

Largest **Stone** Manufacturer & Suppliers.

Unimar is one of the Middle East' largest and most experienced stone manufacturer and suppliers.

Its ability to complete the most challenging civil construction, interior and fit-out projects is backed by one modern factory in **Italy** and one in **Saudi Arabia** - both equipped with state-of-the-art machinery and latest equipment.

Our major work

Capabilities include construction of buildings, renovations, fit-out, interior designs and general contracting. We do it all - from railway stations to skyscrapers to luxury palaces to commercial projects, we are here to turn your next project into success.

Our experience

includes building and renovating skyscrapers, community centers, public sector buildings, private villas and presidential palaces in addition to commercial and office space development.

Partnering

with Unimar provides you with a highly credible contractor who is ethically responsible, cost-conscious, and innovative.

Largest **Stone** Manufacturer & Suppliers.

Unimar

Is one of the Middle East's largest and most experienced stone manufacturer and suppliers.

Its ability to complete the most challenging civil construction, interior and fit-out projects is backed by one modern factory in Italy and one in Saudi Arabia - both equipped with state-of-the-art machinery and latest equipment.

- RUSTIC

Our designers sit down with you and produce a design concept. If you have something in mind, we discuss it in detail i.e., your inspirations, objectives, surroundings, available space etc.

Our goal is to understand your desired outcome based on several factors. Then, we incorporate our skills and knowledge to turn your visions into a design.

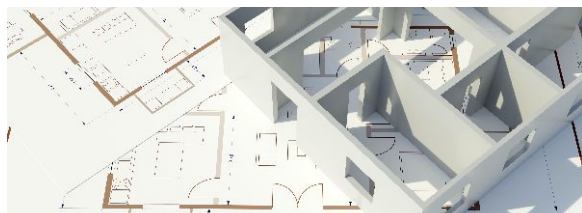

Visualizing is the first step to
achieving something great.

Unimar design

“Design adds value
faster than it adds costs.”

The design phase for any residential or commercial project is especially important because we want to ensure that every decision being made maximizes the return on your investment.

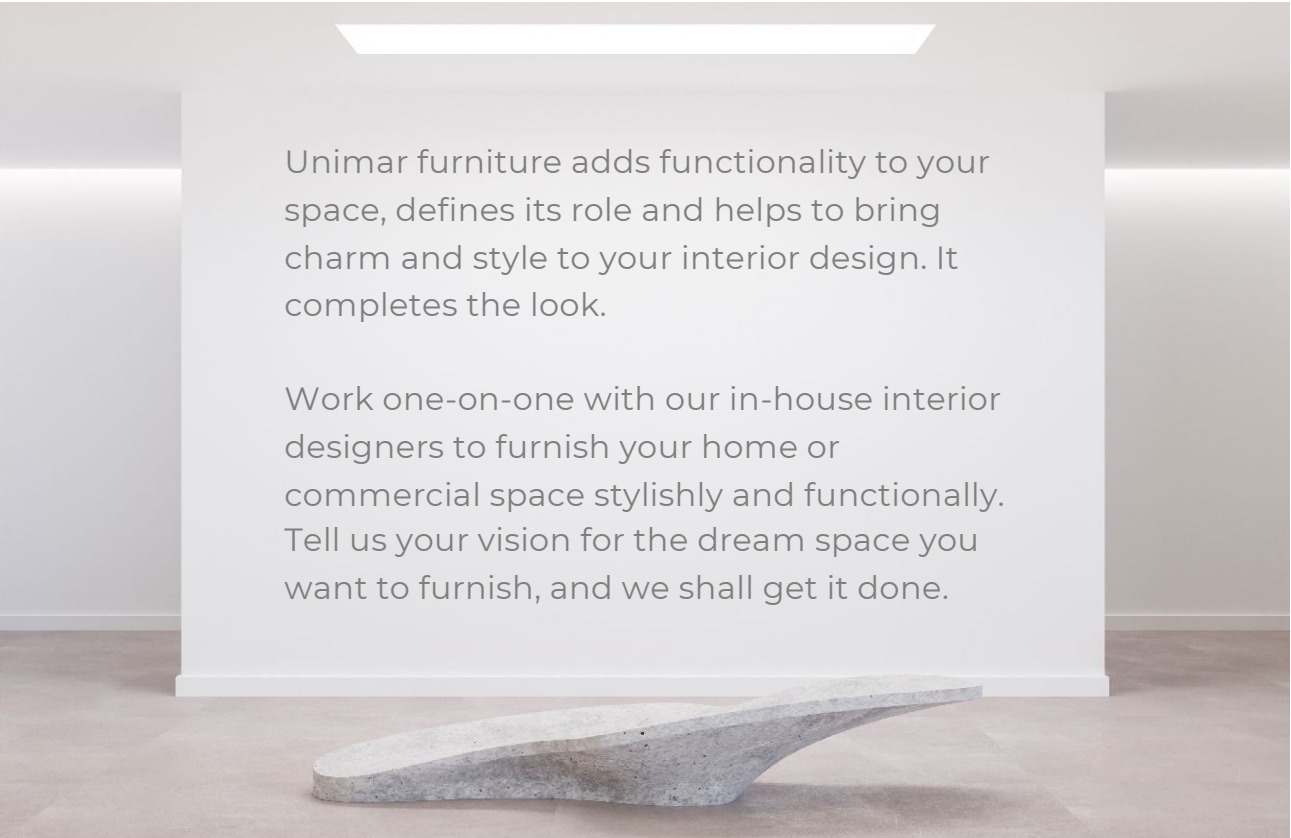

Unimar Fit-Out.

We cover **360** degrees of activities including the installation of the floors, ceilings, partitions, and furnishings.

Our additional building services include cabling, wiring, internet connectivity, and communication arrangements.

Unimar Finishing.

Unimar furniture adds functionality to your space, defines its role and helps to bring charm and style to your interior design. It completes the look.

Work one-on-one with our in-house interior designers to furnish your home or commercial space stylishly and functionally. Tell us your vision for the dream space you want to furnish, and we shall get it done.

WE MAKE IT SIMPLE, BUT SIGNIFICANT.

Unimar Contracting

Unimar is at the forefront of the building contracting and has successfully participated in hundreds of projects in last 25 years.

We understand the importance of partnering with the best-in-class sub-contractors and material suppliers to make sure that our patrons can build the projects of their dreams.

Encouraged by Unimar's initial success as Marble and Granite suppliers, we deliver construction related projects in the entire Middle East.

The hard work and experience of our team has turned **Unimar** into a name alternative to timely and perfect project delivery.

Coeur of good design

When asked, “How the company evolved from a **simple** stone processor to an international **brand**?”

“Innovation is at the Coeur of good design, it’s in our DNA.”

Declares **Talal Mansour**,
CEO Unimar Group

Marbles and Granite Division

We create natural stone designs that gives character and personality to your heart's spaces.

LIMESTONE

The natural beauty

GRANITE

The hardest stone

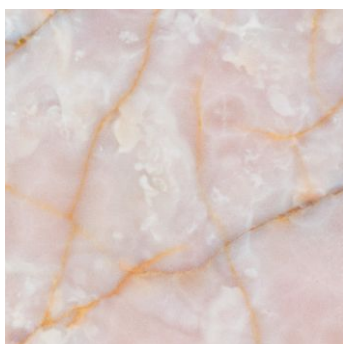

Only diamond is harder than granite.

Transforming **natural** stones.

TRAVERTINE

Brushed by sulphureous gases

ONYX

Precious and striking look-throughs

The Greek used to call it "Shining Stones"

MARBLE

We shape and process marble, with love and respect for the noblest of raw materials, combining art and craftsmanship with the careful use of cutting-edge technology. We specialize in creating one-of-a-kind artistic works in stone, marble, and granite. Our destiny is etched with a prestigious mission to transform every natural stone into an authentic masterpiece of art.

MADE IN ITALY

*** PREMIUM QUALITY ***

Made in Italy has become a global brand. Everyone loves about Made-in-Italy. Why do you think is that and where does Unimar fits into that? Well! Because we embody great design in all its senses.

Unimar is a proud contributor in making Italy a global brand by supplying top quality products, high-end designs and large-scale project deliveries. That is why we have our share of the love that Made-in-Italy gets.

1st Choice Stone & 2nd **Unimar**

Natural stone is incredibly hard-wearing - think of famous buildings or sculptures in the world. Why natural stone, because:

- A premier building material as it reflects unique character, stability, and grandeur.
- It comes from the earth, from eco-friendly compositions as natural choice.
- It can't be mimicked, manufactured, or faked.

Unimar Technology

Natural stones are not a mass market product, and our approach is very much quality oriented. To conserve the natural stone and even enhance its features, we have sophisticated machines and power tools:

- Waterjets & CNC Router
- Rollform Production Lines
- Plasma & Laser Cutting Machines
- Marble Granite Polishing Machines
- Monowire Block Cutting Machines
- Multiwire Gangsaw Multi-wire Saw Machines
- Multi-lade Gang-saw Machines
- Marble Stone Granite-cutting Machines
- Balustrade Column Lathe Machines

The Human Touch

In today's world of mass-production, it is difficult to find the balance between increased demand for natural stone products and the hand-crafting artisans' approach? Robots could never ever replace the human touch when it comes to carving stone.

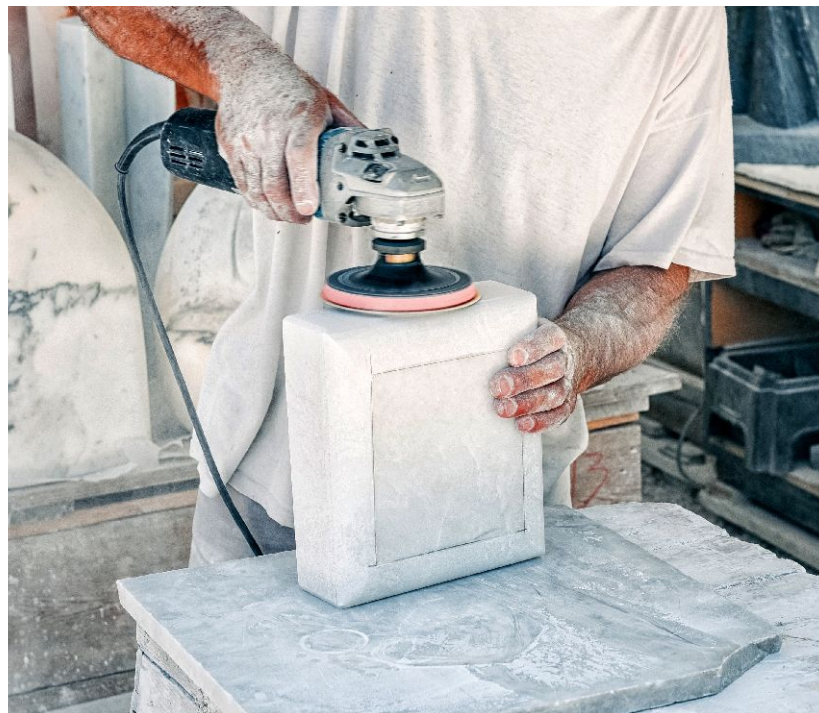

Some of our artisans have been with us for 17 years. For them there is no more secrets in stones and no defeat can escape them. Every single piece is checked and finished by hand.

Natural Stone Council Certification

Architects and designers' trust on Unimar establishes that they value our certifications, and it is a key differentiator for our natural stones.

You can now use our granite and marble as a qualified material for either your LEED or Living Building Standard applications which has brought us such important jobs throughout Middle East and Europe.

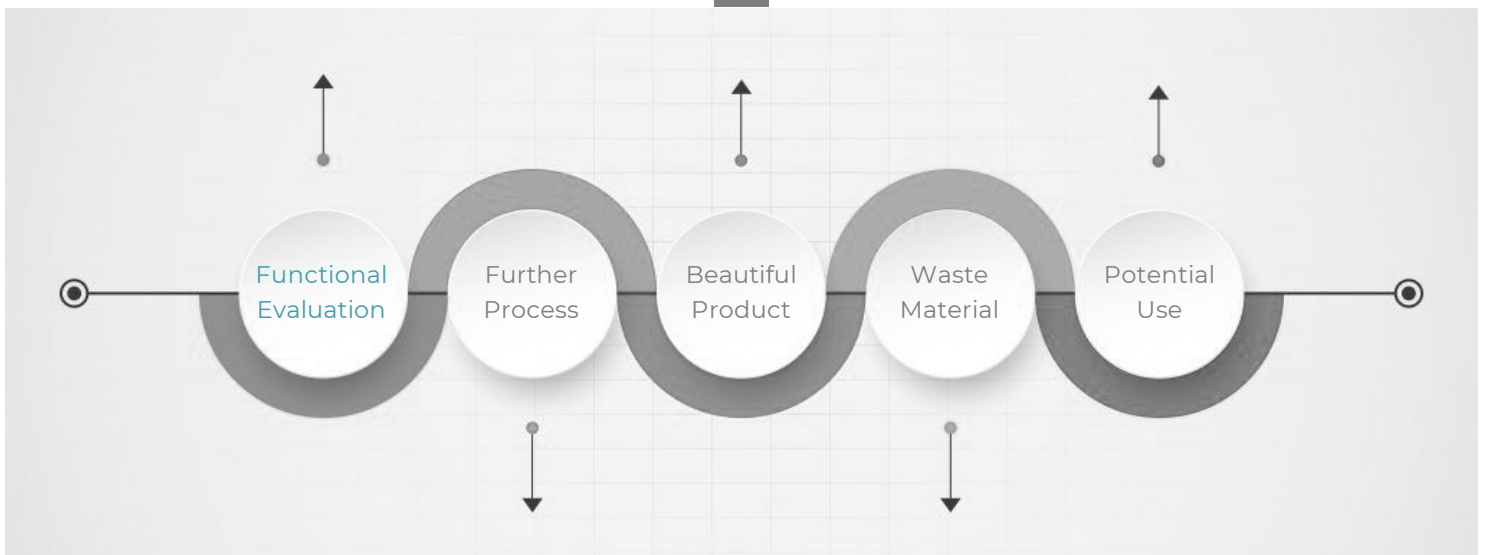

Salute to the Artisans and Designers

With the support and dedication from employees at every level of the company, we've been successful in expanding supplier diversity in many aspects, including traditionally challenging areas such as construction, legal and professional services. Our long-standing philosophy is that our suppliers must provide high-quality goods and services at competitive prices.

Using the best materials and enhancing their qualities is the craftsmanship of our experienced artisans.

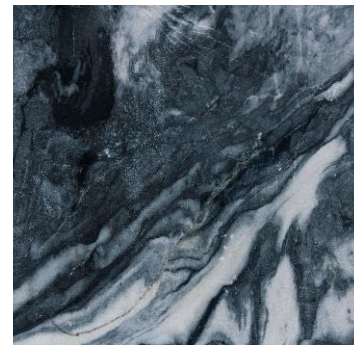

Innovation is at the heart of **Unimar**

Stone Waste

Commercial Blocks

Polished Slabs

28

In 2008, we started to think that we were producing beautiful products, and we were also producing a tremendous amount of waste. We started developing more sustainable practices within our workshop, and started to develop new ways to use scrap material. In the nineties, the minimalism trend began to gain popularity, we were one step ahead of the game, that time.

Besides experience, I would say it's our ability to combine design and functionality, to create timeless products.

ASTM

International Codes and Standards of Practice

Unimar is fully compliant to ASTM International Codes & Standards of Practice:

ASTM C170-90: Standard Test Method for Compressive Strength of Dimension Stone

ASTM C880-96: Standard Test Method for Flexural Strength of Dimension Stone

ASTM C1242-93: Standard Guide for Design, Selection and Installation of Exterior Dimension Stone Anchors and Anchoring System

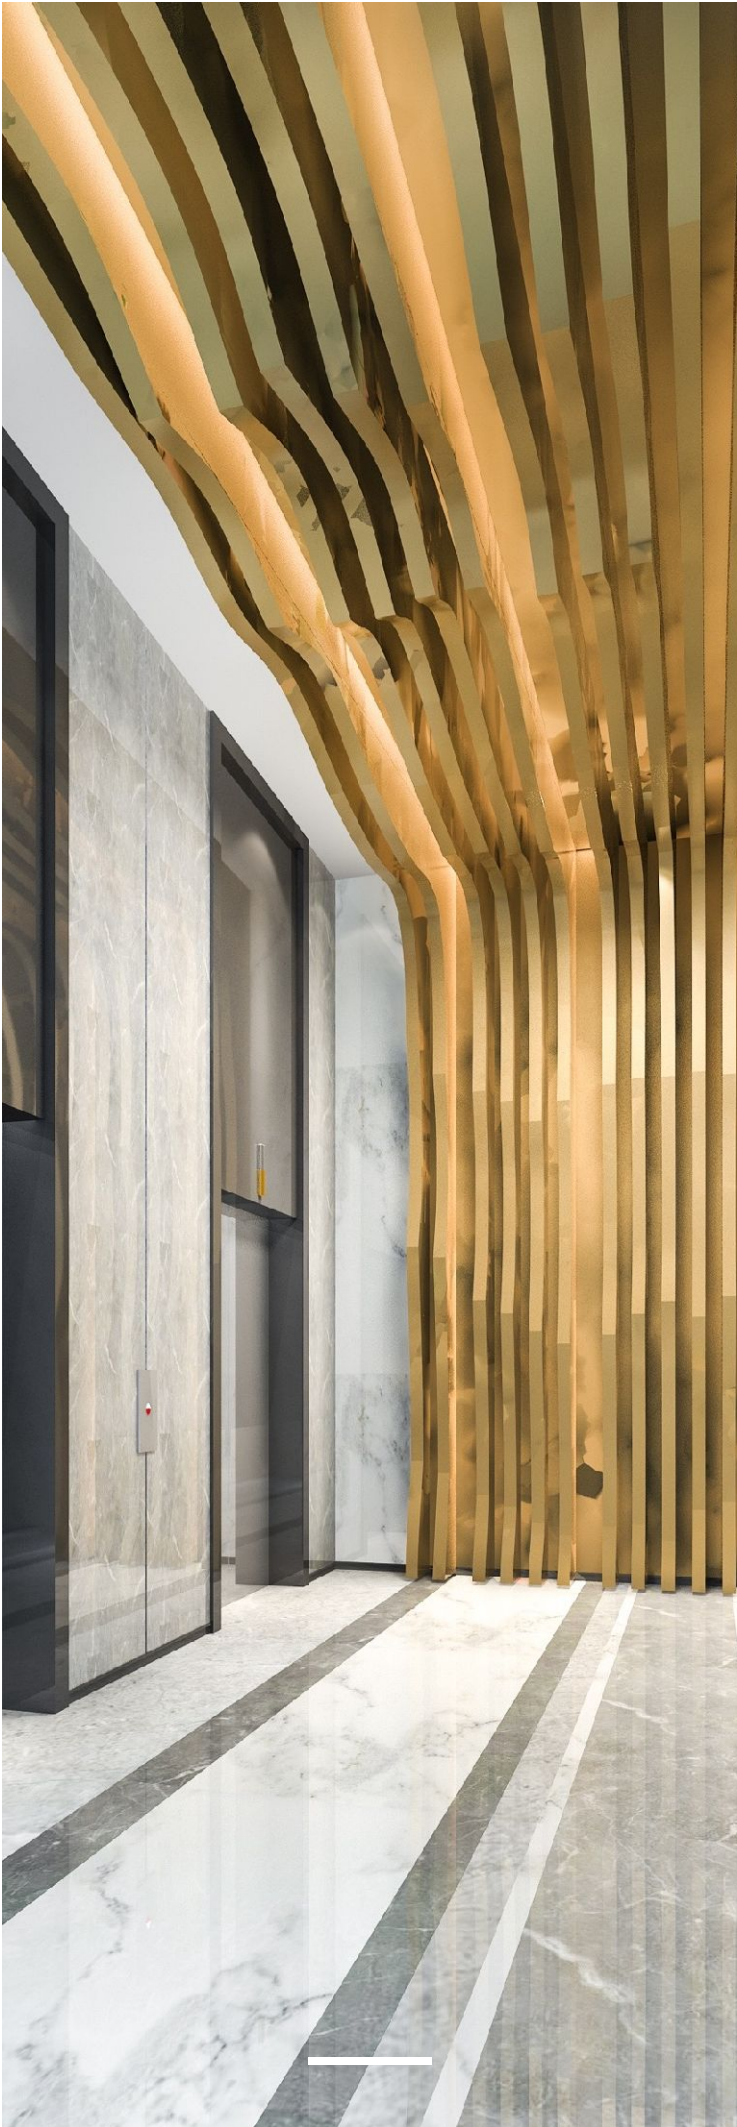

DIN 1053-1: Masonry Part 1: Design and Construction

BS 8298: Design and Installation of Natural Stone Cladding and Lining

ASTM C503-96: Standard Specification for Marble Dimension Stone

ASTM C615-96: Standard Specification for Granite Dimension Stone

Fit-out & **Interiors**

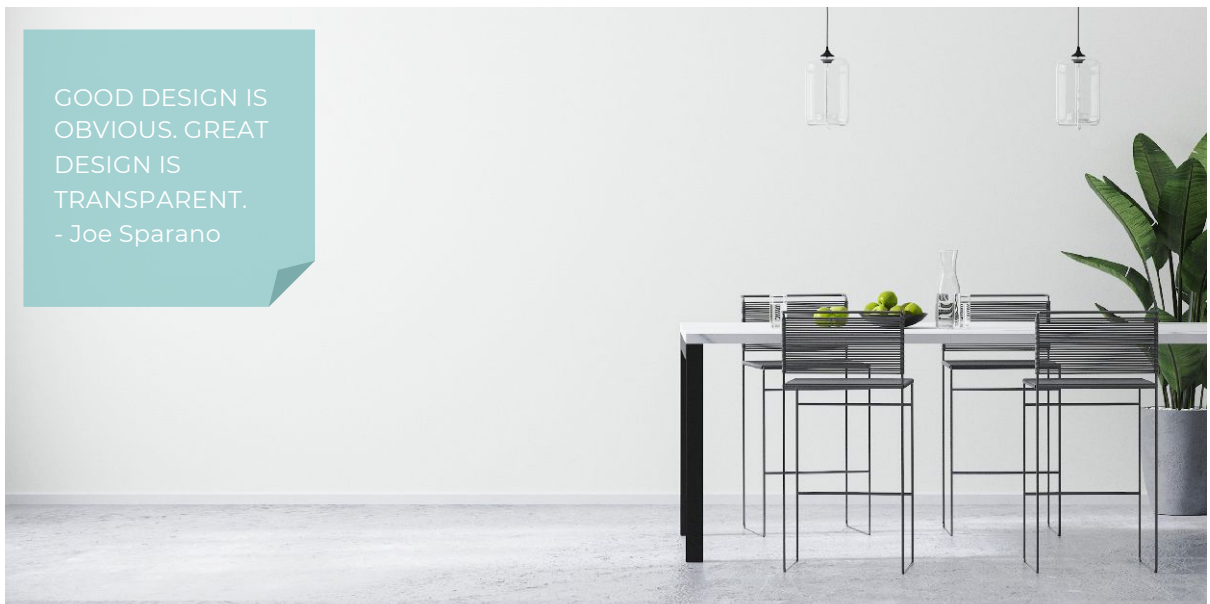

“EVERYTHING IS
DESIGNED.
FEW THINGS ARE
DESIGNED WELL”

-BRIAN REED

Unimar design studio.

GOOD DESIGN IS
OBVIOUS. GREAT
DESIGN IS
TRANSPARENT.
- Joe Sparano

Our products look beautiful because our designers focus on simplicity and usability. The criteria of our success is not everything we put into projects, but by everything the user gets out of it.

Over the years, we have built a very strong Unimar Design Studio having the same ethos of simplicity, elegance and innovation. Our open and inclusive approach towards collaboration is unique to the construction industry. Our flexible and responsive teams allow us to deliver innovative, creative, award-winning spaces, on time and within budget. Our design team can guide you through the whole process including building and workplace appraisals. We work closely with you to establish a design tailored to your needs ensuring it looks good aesthetically but fulfils all functionally. We can also incorporate the integrated technical design of the mechanical and electrical services alongside a detailed drawing package.

With the help of Advanced Design, Geospatial, and Visualization Technologies, we enable clients to test different themes, concepts, products, colors and textures in a virtual environment.

We use 3D animated views enabling our clients to effectively walk through the space that is being proposed. This way, our clients can be certain about the final design and their expectations can be fully met.

From Finest **Marbles** to Fit-out and Interior

Unimar

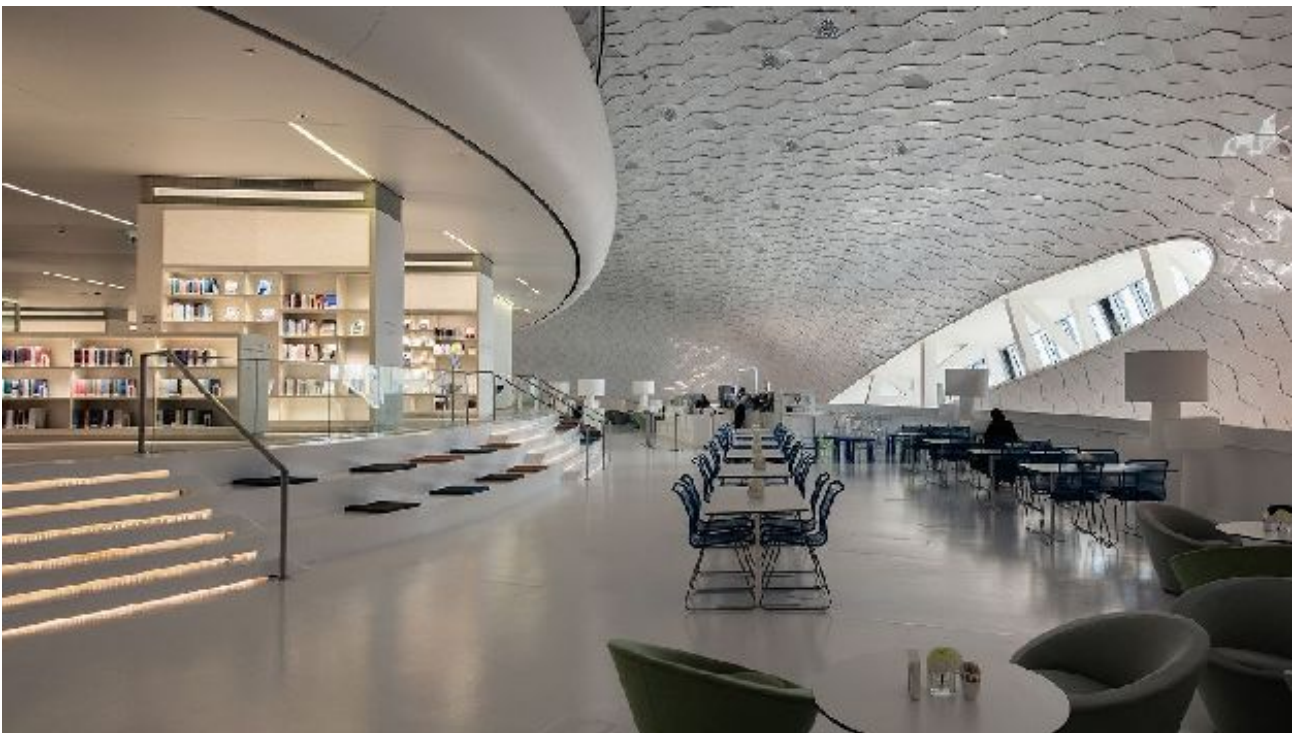

business started in 1996 – more than 25 years ago. Second-generation is warming up to take charge, to keep the promise of quality and customer service.

From natural stone processing, Unimar later-on grew into full-service fit-out, interior design, civil and general contracting company delivering hundreds of projects from around the Middle East. Our operations rely on leading designers, consultants and inhouse teams, to deliver outstanding projects.

Unimar Fit-out & Interior **Design**

Unimar fit out, interior design and MEP contracting unit was established recently. We specialize in full turnkey interior fit out, design and MEP services within the commercial offices, workspaces, educational, healthcare, leisure, and hospitality.

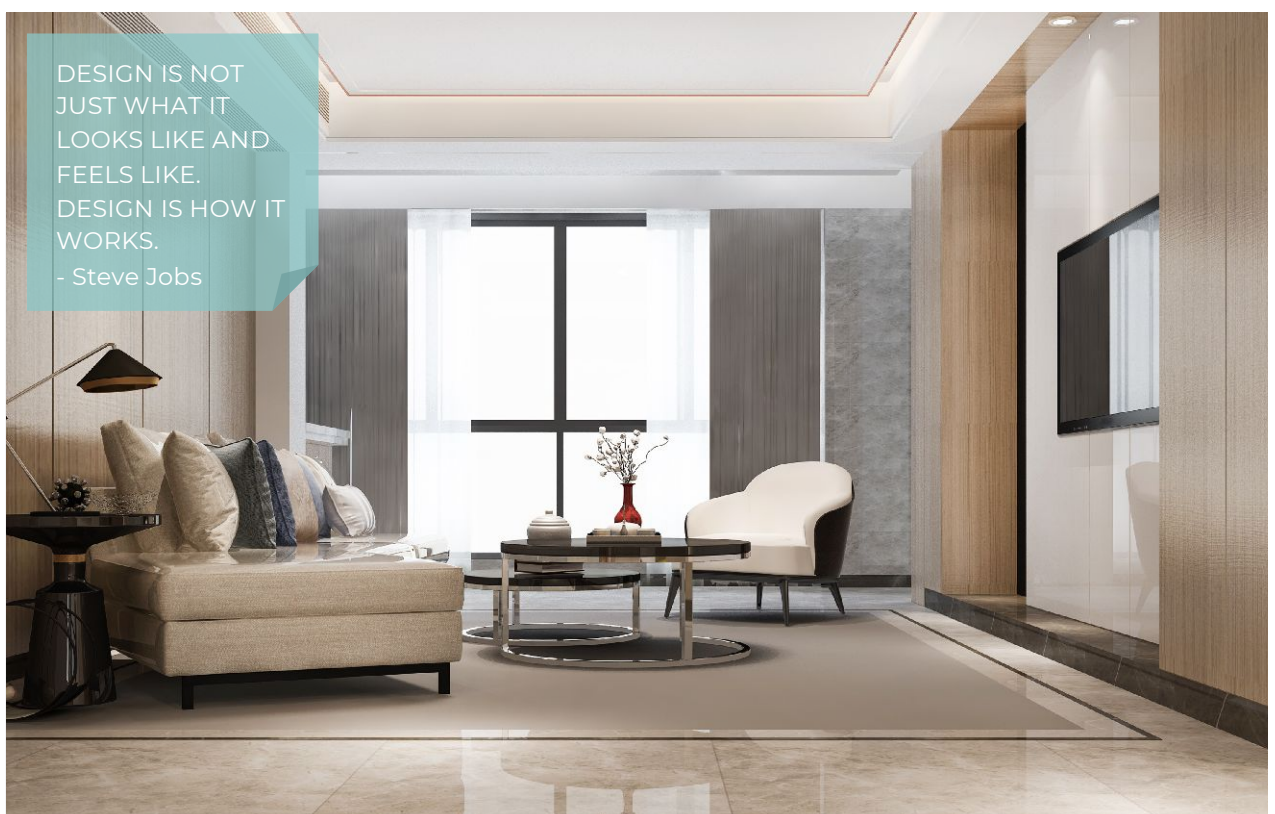

With expertise spread across two decades in all types of civil, MEP, construction supplies and cross-country partnerships, Unimar has the ability to manage and complete all sorts of projects regardless of size.

There is no such product as more beautiful, aesthetics are always subjective. But some stones are so simple and classical, they take your breath away.

Unimar Principles of Fit-out & Interior **Design**

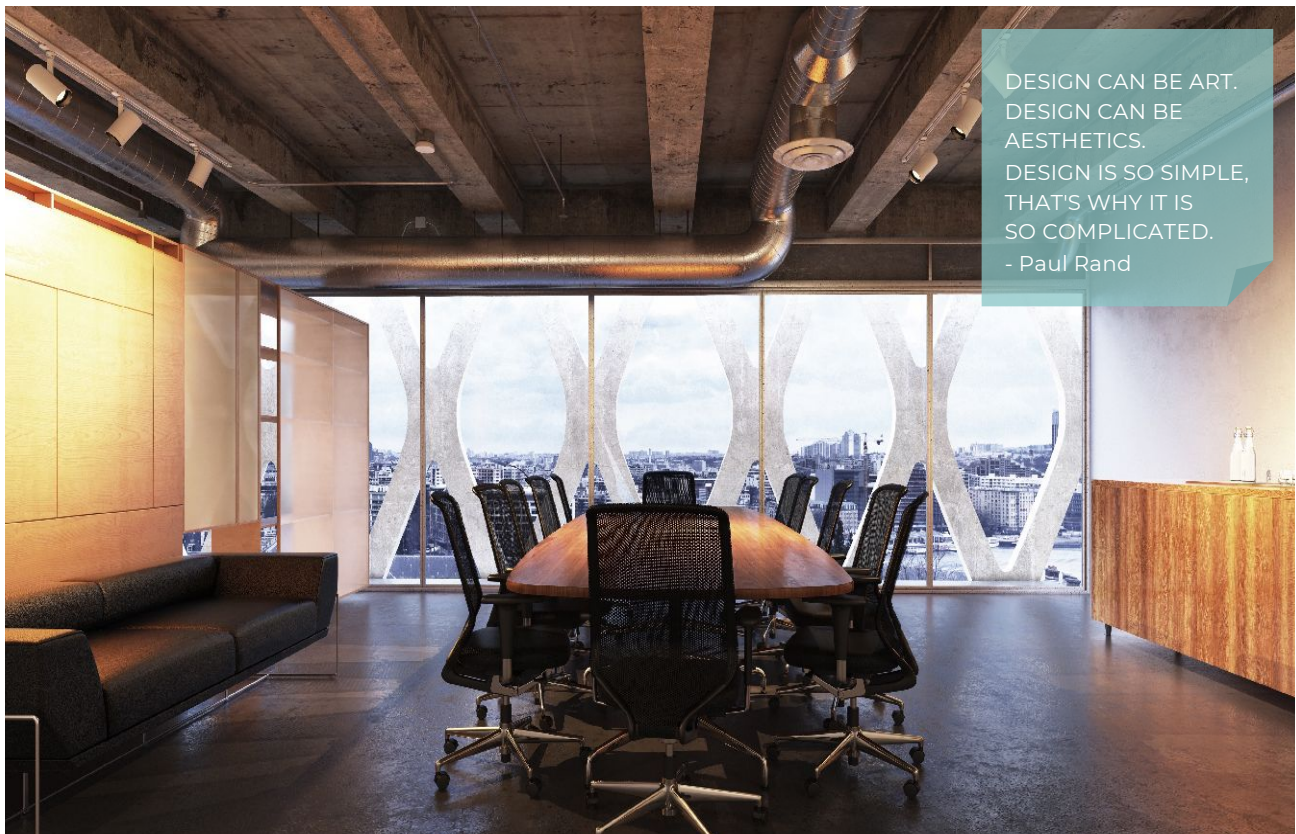

- Indoor air quality
- Thermal comfort
- Use of natural light
- Lighting
- Acoustics
- IT/Wi-Fi connectivity
- Breakout space
- Collaboration
- Flow and circulation
- Group project work
- Quiet space
- Amenity
- Low toxicity finishes
- Energy management
- Waste and recycling systems
- Use of recyclable materials
- Water management systems
- Records & information management

Your lasting **Impression**

Mesmerizing office fit-out and design can impress your clients and business partners, helping you convey a sense of dependability, strength, creativity, and success.

So, office hygiene, organization, and design all play an important role in making the strong first impression.

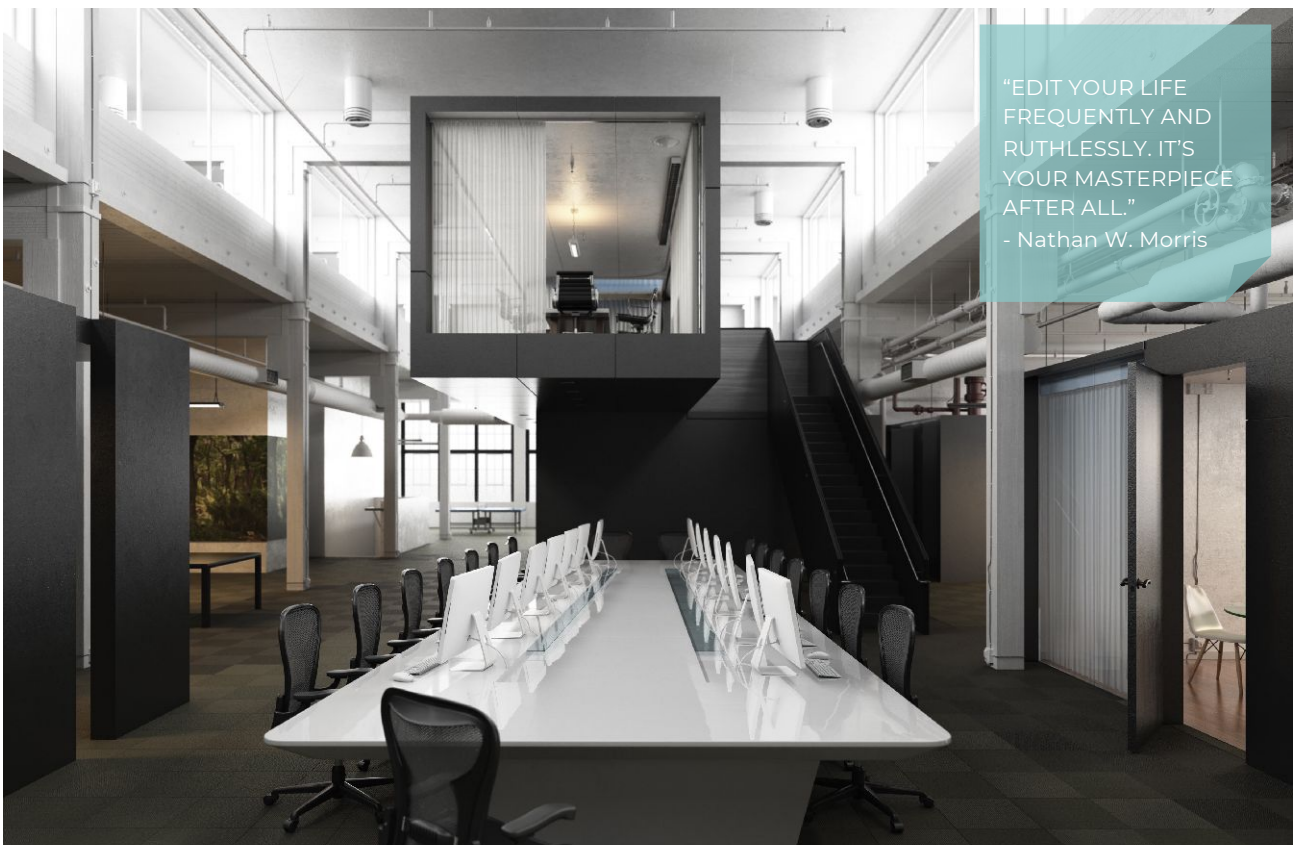

DESIGN CAN BE ART.
DESIGN CAN BE
AESTHETICS.
DESIGN IS SO SIMPLE,
THAT'S WHY IT IS
SO COMPLICATED.
- Paul Rand

Creative space management

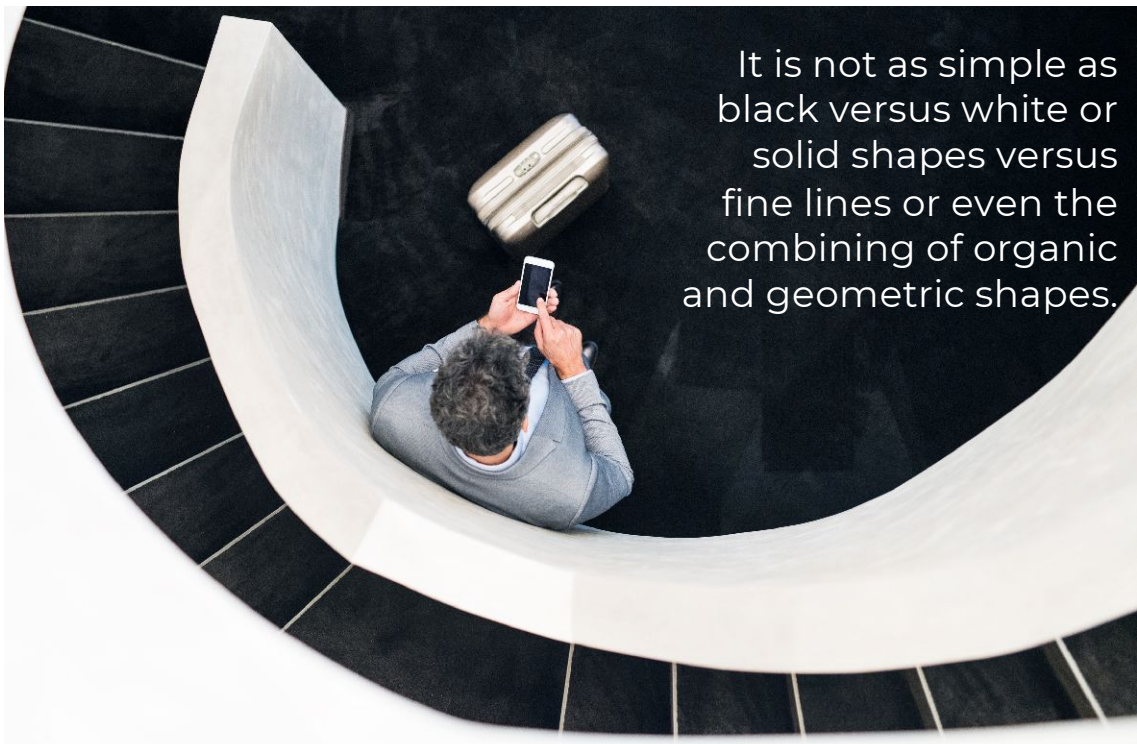

Space management is the process of controlling and managing space with proper planning and designing. Managing the space with planning will help to optimize the utilization of the floor space without wasting it.

Effective space management focuses on People, Places, and Processes. At a high level, the management of your space inventory includes tracking and maintaining your space and occupancy information

"EDIT YOUR LIFE
FREQUENTLY AND
RUTHLESSLY. IT'S
YOUR MASTERPIECE
AFTER ALL."
- Nathan W. Morris

The beauty of contrast

It is not as simple as black versus white or solid shapes versus fine lines or even the combining of organic and geometric shapes.

Bathroom design.

"HAVE NOTHING IN YOUR HOUSE THAT YOU DO NOT KNOW TO BE USEFUL, OR BELIEVE TO BE BEAUTIFUL."
-William Morris

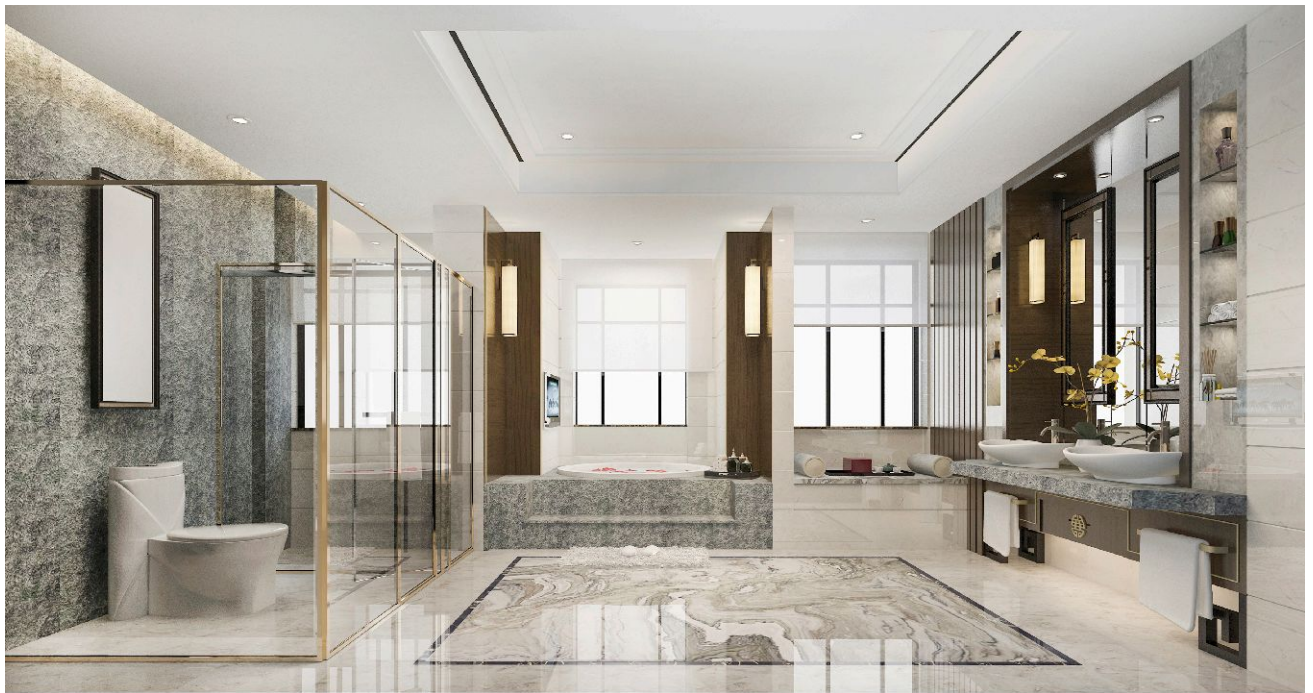

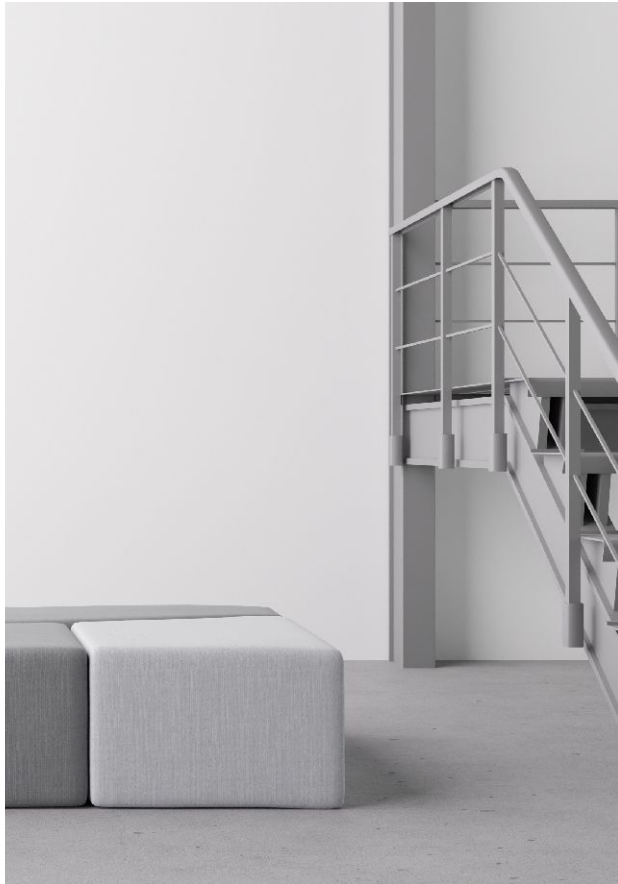

Stones
at their
beauty.

Emma Scheib

“Having a simplified, uncluttered home is a form of self-care.”

Space planning ensures a room can be used to its maximum potential. The process ties the beauty and comfort of a space together. Without space planning, you can end up with a poorly designed space that is awkward and even frustrating to be in.

Dining room.

"EDIT YOUR LIFE
FREQUENTLY AND
RUTHLESSLY. IT'S
YOUR MASTERPIECE
AFTER ALL."

—
-Nathan W. Morris

boardroom

"THE ABILITY TO
SIMPLIFY MEANS TO
ELIMINATE THE
UNNECESSARY SO
THAT THE NECESSARY
MAY SPEAK."

- Hans Hofmann

-BRIAN REED

The **ART** of living well

Residential & **Commercial** Projects

Skyscrapers
Infrastructure
Community

Unimar assisted in the construction of luxurious hotels, buildings, private villas, and community centers, always ensuring the successful completion.

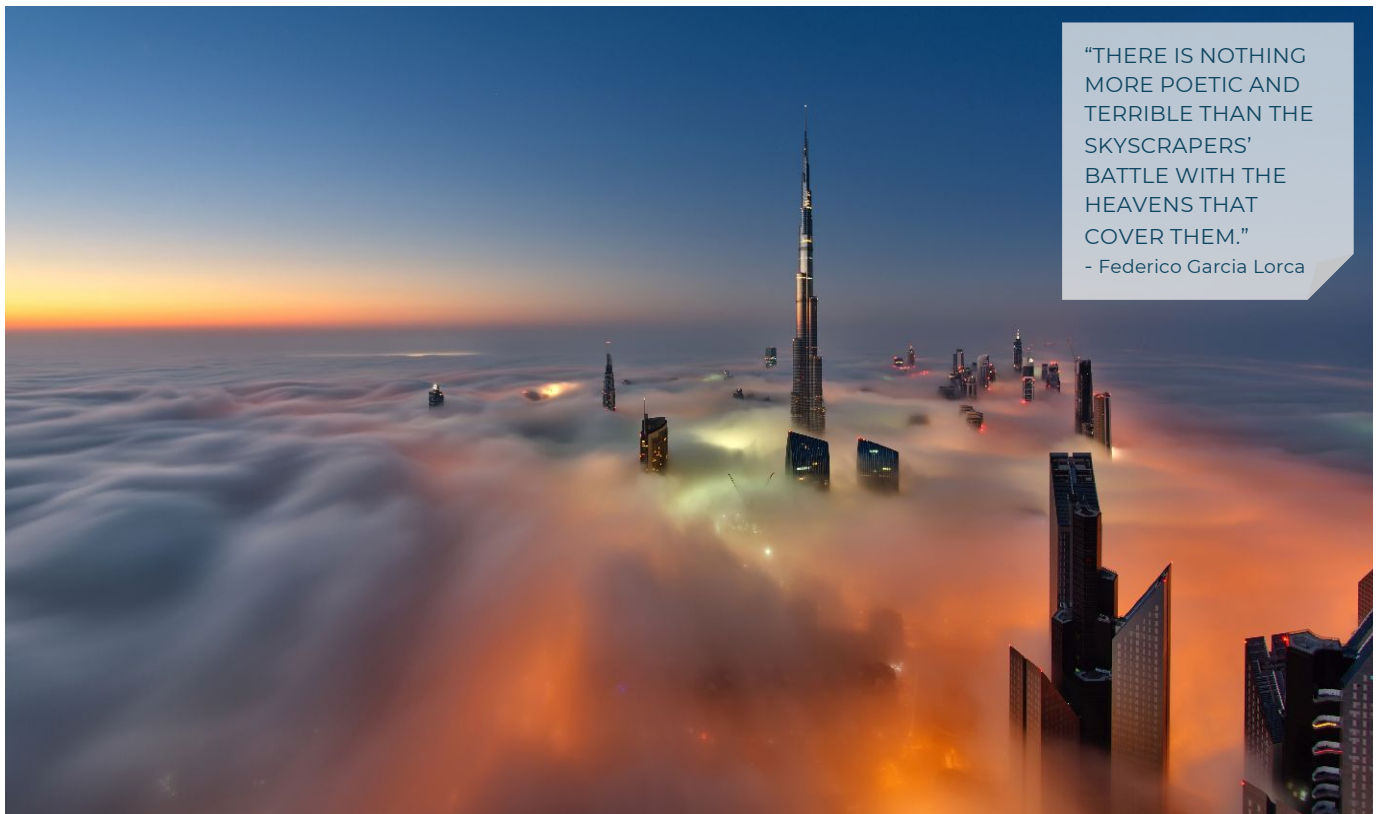

With 20+ years of history spanning across Italy, UAE and Saudi Arabia, Unimar is highly competitive in providing materials and fit outs. Our skyscrapers contracting portfolio consists of numerous buildings — more than 100 total projects completed worth millions of dollars.

This experience can be seen throughout Middle East's largest buildings including Clover Tower Dubai, Hyatt Regency Al Khobar, Hotel Jal Tower Dubai, Kempinski Hotel Dubai, Ocean Heights Dubai and many more project in pipeline.

Talk to heavens

We live in an era where high-rise buildings are directly associated with luxury and stature. The skyscrapers also gives you the experience of living close to the sky with cleaner air and unobstructed scenic views.

Homes on higher floors tend to have a more open and airier feel, with plenty of natural light and none of the congestion usually associated with homes in low-rise buildings.

"THERE IS NOTHING
MORE POETIC AND
TERRIBLE THAN THE
SKYSCRAPERS'
BATTLE WITH THE
HEAVENS THAT
COVER THEM."
- Federico Garcia Lorca

Unimar Team

Our Rain Makers

We strive for two things
in design: simplicity and
clarity. Great designs are
born of those two things.

Our people are behind our solid reputation. Our goal has always been to grow the company without compromising the people inside.

Unimar People

The key to our success lies in finding people who share our values. More than anything, we want people to have a sense of belonging. To me, this is the mark of a successful venture. The human aspect is very relevant when we talk about craftsmanship because it's not only skills that we get, but also hearts – this helps us build a lovely culture. Despite our achievements in the art of designing, our vision for Unimar looks far in the future, where people won't just support brands because of their products, but because they share their values.

To Unimar **Team**

Dear All

Thanks for being with us and making Unimar a name of quality and trust. Our silver jubilee celebrations were not possible without your support. Generally, dreaming is the first step to achieving something. Well, I am dreaming of a company that leads the design scene at an international level.

Reach Us

A wonderful serenity has taken possession of my entire soul, like these sweet mornings of spring which I enjoy with my whole heart.
